

SJC AI GENESIS HACKATHON

2 DAYS HACKATHON

WHERE YOUNG MINDS BUILD
TOMORROW'S AI SOLUTIONS IN
TWO ELECTRIFYING DAYS.

ABOUT THE EVENT

- ✓ Build real AI solutions in 2 days
- ✓ Open to all undergraduate students
- ✓ Mentorship from AI industry experts
- ✓ Compete, collaborate, and innovate with peers from across the region

EVENT VISION

AI Genesis is a 2 days hackathon designed to ignite innovation, collaboration, and challenge students to build real-world AI solutions from the ground up.

DATES

28th – 29th
September 2026

VENUE

St. Joseph's College,
Nainital

ELIGIBILITY

Classes
9 - 12

TEAM SIZE

3 to 5
Participants

REGISTRATION FEE

₹2000
per team

ABOUT THE SCHOOL

St. Joseph's College, Nainital, a distinguished institution with a rich heritage dating back to 1888, stands as a beacon of holistic education and character formation. Established by the Congregation of Christian Brothers, the college has, for over 135 years, been committed to nurturing young minds and molding them into responsible, compassionate, and confident individuals.

ICONIC HERITAGE CAMPUS

A perfect blend of historic charm and modern facilities, creating an inspiring environment for learning and growth.

ACADEMIC EXCELLENCE

Affiliated with the CISCE board, the curriculum offers a rigorous academic framework that encourages critical thinking and intellectual curiosity.

HOLISTIC DEVELOPMENT

A vibrant co-curricular program encompassing sports, public speaking, debates, music, drama, and the arts, ensuring all-round development.

STATE-OF-THE-ART FACILITIES

Well-equipped science laboratories, comprehensive libraries, modern classrooms, and expansive athletic fields to nurture every potential.

A LEGACY OF EXCELLENCE SINCE 1888

Nestled amidst the serene, mist-shrouded hills of the Kumaon Himalayas, St. Joseph's College stands as a premier residential and day institution for boys. The college has spent over thirteen decades cultivating a balanced educational environment that prioritizes both academic distinction and character formation.

GUIDED BY A TIMELESS MOTTO

Guided by the timeless motto, "Certa Bonum Certamen" (Fight the good fight), St. Joseph's College focuses on shaping young men into principled and empathetic leaders. The institution instills core values of integrity, discipline, civic responsibility, and lifelong camaraderie. It empowers students to face challenges with courage and to lead with humility.

MESSAGES FROM LEADERSHIP

MESSAGE FROM THE PRINCIPAL

I am happy to welcome all the participants to **SJC AI Genesis**. This hackathon is a wonderful opportunity for students to come together, share ideas, work as teams, and learn something new. Technology is changing very quickly, and events like this give young people the chance to use it in creative and useful ways. I hope you make the most of these 2 Days, enjoy the experience, and most importantly, learn from one another. I wish all the teams the very best.

MESSAGE FROM THE ORGANISING TEAM

SJC AI Genesis started with a simple thought — students should have a place where they can take an idea and actually build something with it. We have put this event together to give you that opportunity.

Over the next 2 Days, there will be plenty of brainstorming, coding, testing, discussions, and probably a few moments when things don't go as planned. That's all part of the experience.

We hope you enjoy the challenge, help your teammates, meet new people, and leave with something you're genuinely proud of.

**All the best, and welcome to
SJC AI Genesis!**

ABOUT THE EVENT

SJC AI Genesis is a 2 days inter-school hackathon designed to bring together young problem-solvers, creators, and innovators from across schools. The event challenges participants to look beyond conventional solutions and use **AI, technology, creativity,** and **teamwork** to address real-world problems.

Participants will work in teams to select a challenge from a curated set of **15 problem statements**, understand the problem and its users, brainstorm possible approaches, and turn their ideas into functional prototypes. Over the course of **2 days**, teams will move through every stage of the development process—from research and ideation to design, coding, testing, refinement, and final presentation.

The hackathon is not simply about writing code. It is about identifying **meaningful problems**, making thoughtful decisions, **collaborating effectively**, and building solutions that can create genuine impact. Teams will have the opportunity to experiment, learn from their mistakes, **integrate AI tools meaningfully**, and transform an initial idea into something they can demonstrate and defend.

At the end of the hackathon, each team will **pitch and present** its solution before a **panel of judges**, showcasing the problem they addressed, their approach, the technology behind their prototype, and the impact their solution could create.

From the first idea to the final prototype, **SJC AI Genesis** is where students get to build, collaborate, compete, and turn ideas into impact.

BEFORE YOU BUILD

A little preparation today can make a big difference during the 2-day challenge.

KNOW YOUR TEAM

Understand your teammates' strengths and decide how you will divide responsibilities. Good communication and clear roles can help your team work efficiently throughout the 2-day challenge.

COME PREPARED

Bring your laptops, chargers, and any essential equipment or software you may need. Make sure your development environment and required tools are ready before the hackathon begins.

DRESS CODE

Wear relaxed casual clothing like t-shirts, jeans, hoodies, and sneakers so you can focus on building your project. Do not wear clothing with offensive graphics, profanity, or political statements. Avoid anything that compromises safety and comfort during long hours of coding.

PLAN YOUR TIME

Thirty-six hours can pass quickly. Think carefully about how your team will divide its time between understanding the problem, research, development, testing, documentation, and preparing the final presentation.

COME READY TO LEARN

You are not expected to know everything before you arrive. Be ready to experiment, ask questions, learn from mentors and teammates, adapt when things don't work, and improve your solution as you build.

EVENT STRUCTURE

THE CHALLENGE

15 real-world problem statements will be revealed at the beginning of the hackathon. Each team will select the challenge they believe they can address most effectively.

PROBLEM UNDERSTANDING & RESEARCH

Teams should understand the problem, its context, users, existing solutions, limitations, and potential impact before beginning development.

RESEARCH & DEVELOPMENT RESOURCES

Participants may use credible public resources, including government websites, research papers, open-source repositories, documentation, public APIs and datasets, institutional reports, AI tools, and other publicly available technology resources.

RESPONSIBLE USE OF RESOURCES

Teams are encouraged to verify information across reliable sources, understand the material they use, and acknowledge external resources wherever appropriate.

ORIGINALITY & INNOVATION

The solution should not be a completely pre-existing product. Blind plagiarism is not permitted. Teams are expected to demonstrate originality and thoughtful use of technology.

MENTORSHIP & GUIDANCE

Mentors will regularly visit teams throughout the hackathon to provide guidance, answer questions, and help participants refine their approach.

FINAL SUBMISSION & JUDGING

Along with a working website or prototype, each team must prepare a project report in the form of a PowerPoint presentation, which will be presented during the judging process.

REGISTRATION PROCESS

01

VISIT THE WEBSITE

Visit sjcaigenesis.vercel.app and navigate to the Registration page.

02

FORM YOUR TEAM

Create a team of 3–5 members and select one Team Leader from among the team members.

03

CHECK ELIGIBILITY

Students from Classes 9–12 can participate. Teams may participate as school teams or independent teams. A school may register multiple teams, with one team designated as the main school representation team.

The date to confirm participation by school is **September 7, 2026.**

The final date for registration is **September 22, 2026.**

Participants can contact the organizing committee in case they face any problem in registering them.

04

COMPLETE THE REGISTRATION FORM

Enter all required participant, team, school, and contact details accurately on the registration portal. Check all information carefully before submitting the form. The participants can contact the organizing committee in case they face any problem.

05

PAY THE PARTICIPATION FEE

The participation fee is ₹2,000 per team. The mode of payment can either be offline or online. Payment is to be made after the registration is completed. The organizing committee will get in touch with the Team Leader in this regard. The date for making the payment is **September 24, 2026.**

The fee is non-refundable once payment is made.

06

CONFIRMATION & COMMUNITY

Registration will be confirmed only after the payment has been received and verified. A confirmation will be sent to the registered phone number or email ID. In case any change is to be made in the details given in the registration form, the Team Leader must contact the organizing committee.

RULES & GUIDELINES

01

TEAM FORMATION

- Each team must have 3-5 participants.
- Participants may form independent teams or participate as the official school team.
- Schools may register multiple teams, but one must be designated as the Main School Team.
- Each team must have a Team Leader.

02

ELIGIBILITY & REGISTRATION

- Open to students of Classes 9-12.
- Participants must carry a School ID or valid proof of identity.
- Accepted documents include Aadhaar, PAN, Driving Licence, Passport, Class 10 Mark Sheet, Birth Certificate, or any Government-issued ID.
- Registration fees are strictly non-refundable.
- Changes to registration details must be communicated to the Organising Team before the event.

03

PROBLEM STATEMENT

- Each team must select one problem statement provided by the Organising Team.
- The solution must meaningfully address the selected problem.
- Teams must be prepared to explain their approach and intended impact.

04

DEVELOPMENT

- Teams will have 2 days to develop their solution.
- Core website/prototype development must take place during the designated working sessions.
- Night-time work may include backend tasks, research, testing, planning, and documentation.

05

SUBMISSION

- Teams must submit their working prototype, presentation, and required documentation before the submission deadline.
- The submitted project must be demonstrable and functional.
- Teams must be ready to present and explain their solution to the judges.

06

AI & OPEN SOURCE

- AI tools, APIs, and open-source repositories are permitted.
- Blind copying or plagiarism is strictly prohibited.
- Participants must understand and explain the code they submit.
- Significant AI tools and external resources must be disclosed.

07

ORIGINALITY & FAIR PLAY

- All submissions must be the original work of the participating team.
- Copying, plagiarism, misrepresentation, or unauthorised use of another team's work will result in disqualification.
- Teams must be able to demonstrate and defend their solution.

08

CAMPUS CONDUCT

- Participants must follow instructions from the Organising Team, volunteers, and school authorities.
- Movement will be restricted to designated areas within the campus.
- Participants must not interact with the residential students of the school.
- Blind copying or plagiarism is strictly prohibited.

09

DISCIPLINE & SAFETY

- Illegal, prohibited, or unauthorised items are strictly forbidden.
- Threatening, harassing, misleading, or deliberately disrupting others is prohibited.
- Damage to school or event property may result in disciplinary or financial action.
- Serious violations may result in cancellation of the entire team's participation and notification of the respective school/parents or guardians.

10

JUDGING & GENERAL

- Projects will be judged on Problem Understanding, Innovation, Technical Implementation, Impact, Design, and Presentation.
- Teams must be prepared to demonstrate and explain their project.
- The judges' decision will be final and binding.
- Registration confirms acceptance of all rules, guidelines, and official instructions.

FREQUENTLY ASKED QUESTIONS

WHAT IS THE REGISTRATION FEE?

₹2,000 per team.

WHAT IS INCLUDED IN THE REGISTRATION?

Registration includes food, participant kits, and participant certificates for all registered participants.

WHO CAN PARTICIPATE?

The hackathon is open to students of Classes 9–12.

CAN SCHOOLS REGISTER MULTIPLE TEAMS?

Yes. Schools may register multiple teams, with one team designated as the Main School Team.

WHAT SHOULD WE BRING?

Every team must bring at least one laptop and its charger. Teams may also bring any additional equipment required for their project.

CAN WE USE AI DURING THE HACKATHON?

Yes. AI tools, APIs, and open-source resources are permitted, subject to the AI Usage, Originality, and Fair Play rules.

WILL WI-FI AND POWER BE AVAILABLE?

Yes. Wi-Fi, network connectivity, power sources, and battery backup will be available at the venue.

WILL FOOD BE PROVIDED?

Yes. Food and refreshments will be provided by the school according to the event schedule.

WILL PARTICIPANT KITS BE PROVIDED?

Yes. Participant kits will be provided to all registered participants.

WILL WE RECEIVE A CERTIFICATE?

Yes. Every registered participant will receive a Participant Certificate.

WILL TRANSPORTATION BE PROVIDED?

No. Participants must arrange their own transportation to and from the venue on both days.

WILL ACCOMMODATION BE PROVIDED?

No accommodation will be provided by the school. Participants travelling from outside Nainital who wish to stay overnight may arrange their own accommodation in Nainital or travel back.

WHAT HAPPENS AFTER DAY 1?

Participants will be dismissed before late evening to allow those travelling longer distances to reach home safely. Participants returning home will need to arrive again on Day 2 according to the schedule.

ITINERARY

DAY 1

THE BUILD BEGINS

07:30 – 08:00

REGISTRATION

Participant registration, kit collection and formalities.

08:00 – 08:30

BREAKFAST

Breakfast and settling in.

08:30 – 09:30

OPENING CEREMONY

Welcome address, introduction to SJC AI Genesis, rules and event briefing.

09:30 – 10:00

PLACE ALLOTMENT & BRIEFING

Teams are assigned their workspaces and receive final instructions.

10:00 – 13:00

DEVELOPMENT SESSION I

Problem analysis, research, ideation and initial development.

13:00 – 14:00

LUNCH BREAK

14:00 – 16:30

DEVELOPMENT SESSION II

Core development, coding, AI integration and prototype building.

16:30 – 17:30

SOCIALS

Networking, interaction and informal activities.

17:30

DISMISSAL — DAY 1

After 17:30: Participants may continue background work, backend tasks, research, documentation and presentation preparation from home. The main website/prototype development is not to be carried out after the designated Day 1 development session.

ITINERARY

DAY 2

THE FINAL PUSH

ST. JOSEPH'S COLLEGE NAINITAL

07:30 – 08:00

CHECK-IN

Team check-in and preparation for the final development session.

08:00 – 08:30

BREAKFAST

Breakfast and settling in.

08:30 – 13:00

FINAL DEVELOPMENT SESSION

Final coding, testing, refinement and completion of the working prototype.

13:00 – 14:00

LUNCH BREAK

14:00 – 17:00

JUDGING, EVALUATION & FINAL PRESENTATIONS

Teams present their solutions, demonstrate their prototypes and answer questions from the judging panel.

17:00 ONWARD

CLOSING CEREMONY

Result declaration, prize distribution, and closing address.

Augmented,
Interactive,
Experiences.

FINAL PRESENTATION

Showcase your solution and demonstrate the impact of your ideas. Present your prototype clearly, confidently, and within the allotted time.

FINAL PRESENTATION FLOW

PRESENTATION DURATION
5 MINUTES + 3 MINUTES Q&A

1. PROBLEM STATEMENT
Explain the problem your team chose and why it matters.

2. SOLUTION OVERVIEW
Present your idea, key features, and approach.

3. LIVE PROTOTYPE DEMO
Show the working prototype and its core functionality.

4. AI INTEGRATION
Highlight where and how AI was used in your project.

5. IMPACT & FUTURE SCOPE
Explain scalability, usability, and future improvements.

PRESENTATION GUIDELINES

- ✓ Bring a working prototype ready for demonstration.
- ✓ Keep your presentation within the allotted time.
- ✓ Be prepared to answer technical and implementation questions.
- ✓ Clearly disclose the use of AI tools, APIs, or external resources.
- ✓ Judges may inspect any part of your code or workflow.

HACKATHON

PRIZES & RECOGNITION

TOP 3 WINNERS

Exciting prizes, trophies, certificates, and exclusive recognition await the winning teams.

SPECIAL AWARDS

Creativity • Innovation • Team Spirit

PARTICIPATION RECOGNITION

Certificates and participation kit for all registered participants.

WHY YOU SHOULD COMPETE

COMPETE

Win exciting rewards and campus recognition.

SHOWCASE

Present your AI solution before an expert judging panel.

CONNECT

Collaborate with talented innovators and peers.

GET RECOGNIZED

Earn certificates and special awards for outstanding performance.

SPECIAL RECOGNITION

- Best Creativity
- Most Innovative Project
- Outstanding Team Spirit
- Best AI Integration

EVERY PARTICIPANT RECEIVES

- Participation Kit
- Participation Certificate

VOLUNTEERS RECEIVE

Certificate of Appreciation
